MADDEN DRY DECK

Waterproof Ceiling for Under Your Deck

During the last decade Madden Manufacturing has produced thousands of Dry Deck Waterproof Ceiling Systems for contractors and Do-It-Yourself homeowners throughout the nation. With our commitment to premium products at a contractor's price, you can rest assure that increasing your outdoor living space is the right decision financially and for your family's enjoyment.

- 100% Aluminum construction keeps its shape year after year unlike vinyl products that warp from expansion and contraction

- Smooth Bright White, White Woodgrain, and Tan Woodgrain finishes available

- No Maintenance Polyester Paint Finish with a 10-year factory warranty

- Each order manufactured to exact deck dimensions, so you are not paying for excess material like with other under-deck products. This fact makes Madden Dry Deck one of the most cost effective and environment friendly systems on the market

- Compatible with traditional K-style 5" and 6" home gutters so it matches the rest of your home

- Works with most every type of deck, even cantilevered or low beam framing

- Compatible with ceiling fans and other ceiling mounted furnishings

- Eliminates the moldy musty feel below your deck by directing rain and snow to proper drainage locations

- Aluminum under-decking is easily sized for non-rectangular decks using a circular or chop saw with a standard wood blade

- Immediately increases your home's value by adding additional outdoor living space. What other exterior project can pay for itself so quickly?

Can you imagine increasing enjoyable outdoor living with such a simple, cost effective, and environmentally sound decision? It is that easy with Madden Dry Deck:

1. Measure the projection of your deck from home to the outer edge of the deck board
2. Measure the width of your deck outer edge to outer edge
3. Call your favorite building materials reseller and tell them you are ready to order the Madden Dry Deck!
4. In 7 days or less your custom Madden Dry Deck arrives at your home ready for installation
